PSY 4123	Introduction to Sports Psychology
BSM 4133	Sport Law and Ethics
KIN 3293	Clinical Field Study I
PED 4113	Tests and Measurements
XXX XXX3	Elective

Spring Semester	15 hours
KIN 4113	Biomechanics
KIN 4143	Exercise Physiology
KIN 4593	Clinical Field Study II
XXX XXX3	Elective

#### Please Note:

- This plan is one example of how to complete the degree in 4 years. It assumes no transfer credit and no developmental coursework. It will work for some, but not for all.
- You can meet with your scheduler, program coordinator, or department chair to plan around your circumstances and develop your personal degree path. Degree requirements and offerings are subject to change, so consult advisors for on-going updates.
- Course Offering Codes:
  - ∞ every fall and spring semester
  - \* only that semester in odd years
  - \*\*\* to be taken *only* in specified semester
  - ◇ every year only fall/spring/summer (as listed)
  - \*\* only that semester in even years
  - ∞/◇ offering differs in order listed

# Degree Path: B.S. in Kinesiology

## College of Business and Education

### OVERVIEW

The Bachelor of Science in Kinesiology provides inroads for graduates to pursuing para-health vocational fields, exercise science, coaching or sport management. In addition, the degree provides an opportunity to pursue graduate studies in athletic training, physical therapy, occupational therapy, sport management, and coaching. Degree recipients may pursue certifications in fitness and training from recognized associations such as National Strength and Conditioning Association's Certified Strength and Conditioning Specialist (CSCS).

### CAREER OPPORTUNITIES

Someone with a Kinesiology Degree can pursue careers in the following, athletic trainers, strength and conditioning coaches, sports management, exercise physiologists, and massage therapists. Can further go into the medical field physical therapy, occupational therapy, chiropractic, physical medicine.

### PROGRAM HIGHLIGHTS

- Have the ability to utilize a Christian worldview and holistic perspective to practice ethical, collaborative service, while advocating for healthy, active lifestyles.
- Have knowledge basic and relative to human body function and movement.
- Utilize oral and written communication skills that meet appropriate professional scientific standards in Kinesiology.
- Evaluate human movement and physical activity and create exercise programs for diverse populations.
- Have a foundation and knowledge to pursue professional certification and/or be accepted to a graduate program.
