  - ∞/◇ offering differs in order listed

#### The Value of an Associate Degree

Adding an associate degree to your goals while here at SAGU can help increase your ability to stand out in the marketplace.

Employers are looking for individuals who have vast knowledge across a subject matter as well as depth in specific areas that are important in that field. Starting with, or adding, an associate degree gives you breadth whereas a bachelor's degree is designed to give you the depth required to contribute in even greater ways in your chosen profession.

If you're interested in an associate degree from a different discipline than your major, the breadth of knowledge you can gain from such cross-disciplinary study can generate stronger critical thinking skills, which improve your status in the hiring process as well.

Another thing to consider is how an associate degree allows you to explore different fields of interest before or while you are pursuing a specific major. If you are still deciding on a major, pursuing an associate degree can help you choose to experience the curriculum in that area.

## College of Music and Communication Arts

### OVERVIEW

Similar to our B.A. degree, the intent of the English A.A. is to:

- build on a love for literature, writing, and language to equip you for current and future careers and ministries;
- challenge you to think critically, to research and evaluate underlying themes and worldviews embedded in the conversations throughout literature and history about major life issues;
- cause you to view your work as contributing to the cultural conversations in progress;
- help you discover the power of your own voice in writing and thinking;
- instill pride in the work you produce as you strive for excellence.

All of the above flow out of a deep respect for God's Word and the intent to prepare students to have a ready response for skeptics – an articulate defense of the faith in our contemporary, postmodern world.

### CAREER OPPORTUNITIES

The English A.A. expands your marketplace currency, demonstrating strengths in reading, writing, thinking, and communicating – all skills that employers value highly. Adding an English A.A. to your programs of study while here will increase your written and verbal expressiveness, enhance the impact of your communications, and broaden your worldview. Most importantly, pursuing an English A.A. here will prepare you to interpret the written world – past and future – through the lens of God's Word.

### PROGRAM HIGHLIGHTS

- Literature, writing, or teaching focuses as selected by you, the student
- Flexible degree plan with 12 hours of major-specific course choice and 6 hours of general electives in total which can be ENG/WRT focused or not, allowing for a very broad or very narrow study focus
