Degree Path: B.A. in Worship Arts (Technical)

College of Music and Communication Arts

OVERVIEW

Worship Arts is a ministry preparation program for the development of worship ministers who serve the musical needs of the Church, while serving as part of a pastoral team. In addition to the Bible core, the curriculum places an emphasis on both leadership and media courses and includes hands-on internship required credit hours.

CAREER OPPORTUNITIES

Because the Worship Arts degree with the Technical Arts specialization is designed to prepare students for vocational ministry, most of our graduates go on to become music directors, creative arts pastors, or media pastors. This degree program places a significant emphasis on the development of skills in media and music technology, which also enables students to pursue the fields of music teaching, music performance, and audio production.

PROGRAM HIGHLIGHTS

The Worship Arts degree provides valuable training and preparation for students who want to pursue worship ministry. The Technical Arts specialization promotes a well-rounded approach to ministry because of the dual focus on courses that both develop musical technology skills and cultivate leadership abilities. Worship Arts students have four internship courses built into the degree, which allow them to partner with local church worship departments.

Highlights of this degree include specialized courses, such as: Audio Production for Music, Live Audience Media Technologies, and Worship Leadership.

Our students are taught by accomplished faculty with years of experience in vocational ministry and musical expertise.
